TIPS FOR CREATING FSA ID
https://fsaid.ed.gov

- Create your own FSA ID! Students-don't create your parent's ID. Parents-don't create your student's ID. It can create big problems if you don't create your own.
- You and your parent will each need a working email address. **It cannot be the same one.**
- Username and password are case sensitive—note caps, spaces, numbers. Write it down.
- Always click the "show text box" option and make sure you have typed your info correctly.
- Do not skip the option to verify your email address. It prevents problems later.
- Don't click the back button—it will log you out. Use 'previous' button at bottom of page.
- Check your social security number (SSN), your name and your date of birth VERY carefully. It is difficult to correct errors on these after you submit.
- Students and/or parents **without a SSN** (including those with DACA) do NOT need FSA ID.
